## Socio/Economic Impacts

1. Purchased 10 new fishing boats complete with an outboard motor and a set of 5 fishing nets at a total cost of about US\$30,000.

Total cost per new boat	3,000 US\$/boat
Estimated net income/day/for new boats	20 US\$/day
Estimated time to payback investment	<b>150 Fishing days</b>
2. Purchased about 10 smaller sets of nets and sufficient outboard motors to equip 10 more fishing boats that were idle for lack of this equipment at a cost of about US\$ 5,310.

Cost for outfitting a repaired boat	531 US\$/boat
Estimated net income/day/repaired boat	12 US\$/day
Estimated time to payback investment	<b>45 Fishing days</b>
3. All \$35,310 donated was spent in Chennai which stimulated the local economy.
4. Tons of low cost, highly nutritive fish are being produced for local consumption.
5. Alcohol consumption is reported to have quadrupled in the villages. The boats will get the fishermen back to work and help preempt further social degradation.
